Emails from CLTi students who have got jobs:

Nelson

Hello Jenny,

Here are my answers to questions other people have asked:

* whether the Certificate in TEFL is useful for your teaching now

The programmes I've done during the course certainly helps me.

* whether your boss at your school "recognises" the value of the Certificate

My school treats it as a teaching qualification.

* what you found most useful

The whole course gave me a confidence as a teacher. It has given me a new paradigm in teaching, especially teaching a language. I use many activities and games that I've encountered during the course. But, the reality doesn't allow me to implant every single detail of the idea (communicative teaching)

June Na

A few months ago, I came back to Korea with my parents and I am teaching middle school English here in Korea now. I often recall the very pleasant time at CLTi. I miss many good people and beautiful land of your country as well.
